COVER LETTER

Having a degree in Computer Engineering from CEFET-MG, I started my career in technology as a chatbot developer. I worked with it for just over 2 years until I migrated to front-end development, mainly focused on responsive web applications. I've been working in this area for one year and in that time, I've worked with several technologies such as React, Typescript, Next.js, Chakra-UI, Cloudflare, MongoDB, and Git.

In all these years as a developer, I had the opportunity to work with teams, companies, and products which allowed me to gain experience in areas related to programming, such as UX/UI, data analysis, product management, and agile methodologies. This was instrumental in developing and improving my self-management, teamwork, and resilience skills which allow me to have the confidence to face any challenges.

PROFESSIONAL BACKGROUND

- | | |
|---------|---|
| 10.2022 | Frontend Engineer |
| Current | <i>Internal Systems – EQI Investimentos</i> <ul style="list-style-type: none">· Building and maintaining responsive web applications using React, Typescript, Next.js, Chakra-UI, and Material-UI.· Peer review of the team's code to ensure quality and standardization.· Integrating front-end with MongoDB and Salesforce for data traffic.· Deploying web applications with Cloudflare Pages.· Close communication with business areas to understand projects and tasks. |
| 08.2021 | Chatbot Developer, |
| 04.2022 | <i>Localiza Labs (outsourced) – Framework Digital</i> <ul style="list-style-type: none">· Chatbot development using Blip platform. |
| 12.2020 | Software Engineer, |
| 08.2021 | <i>[R&D] Customer Solutions – Take Blip</i> <ul style="list-style-type: none">· Chatbot development using Blip platform.· APIs development using C# and Azure DevOps for CI/CD.· Mediation, alongside team members with different expertise, on how to make our OKRs definition more efficient. |
| 03.2019 | Technology Intern, |
